

LHC536

Locking system for lift handles

Description	Push button only
Compatible handle	LLH501N/LLHS501N/LLH503N
Item no.	LHC536

Description: Profile half cylinder locks. To be used in the lift handles LHC.

Pack quantity: 1 piece.

The locking inserts and cylinders can be mounted independently in the lift handle, which means many combinations can be created. This reduces the number of handles to be stocked.
