

SCE1200

Section profiles for cable entry

W	1200
Item no.	SCE1200

Description: For sealing the cable entry between gland plates. Forms a tight seal around cables and fills gaps to prevent dust from entering. The foam is pre-fitted in the section profile that can be easily mounted in the bottom plates thanks to its click-in fixing solution. An alternative to the bottom late gasket kit BG01.

Material: Extruded PVC section profile. Gasket: adhesive foam with cross-section of 30 x 25 mm.

Pack quantity: 1 set consisting of 2 click-in section profiles with foam rubber.

This click-in section profile has a pre-mounted gasket to seal the empty space around cables routed between bottom plates, which maintains the enclosure's protection degree.
